

# GENIOS CLUB

**100% DECENTRALIZED SOLIDARITY MATRIX**

# SOLIDARITY

The powerful force that can make people achieve anything they set themselves to do.

Our mission is to create a solidarity economy system where each one of us is the engine that provokes the necessary changes to raise individual and collective quality of life.

# CHANGE YOUR MENTALITY WITH OUR ACADEMY

By being part of **GENIOS CLUB** we do not guarantee magical results.

That is why we understand that it is necessary to undergo a mental change and for this reason a personal and leadership academy is developed for the use of our community.

It is the individual responsibility of each person to participate in the academy events and use the resources available to the team.

Like everything in life, the results can be different when one person is compared to another.

## DECENTRALIZATION

### DAI – Polygon BlockChain

Our system works in a "decentralized" way through an automated contract that offers maximum security and sustainability.

A smart contract is a self-executing algorithm that, in this case, exists within the Polygon BlockChain.

Smart contracts, like cryptocurrencies, are decentralized and work without the possibility of subsequently modifying the previously defined execution.

The code that contains all the logic of the contract is on the Blockchain and millions of computers around the world provide all the calculations, this ensures that there is no risk of hacking the smart contract or stopping the project.

## G3X2 & G3X5 COMBINED LEVELS

1	5	2	20	3	80	4	320
5	1,280	6	5,120	7	20,480	8	81,920

Getting active in both G3X2 and G3X5 programs  
is the best way to maximize the marketing plan

## G3X2 & G3X5 INDIVIDUAL LEVELS

### G3X2

1	2.5	2	10	3	40	4	160
5	640	6	2,560	7	10,240	8	40,960

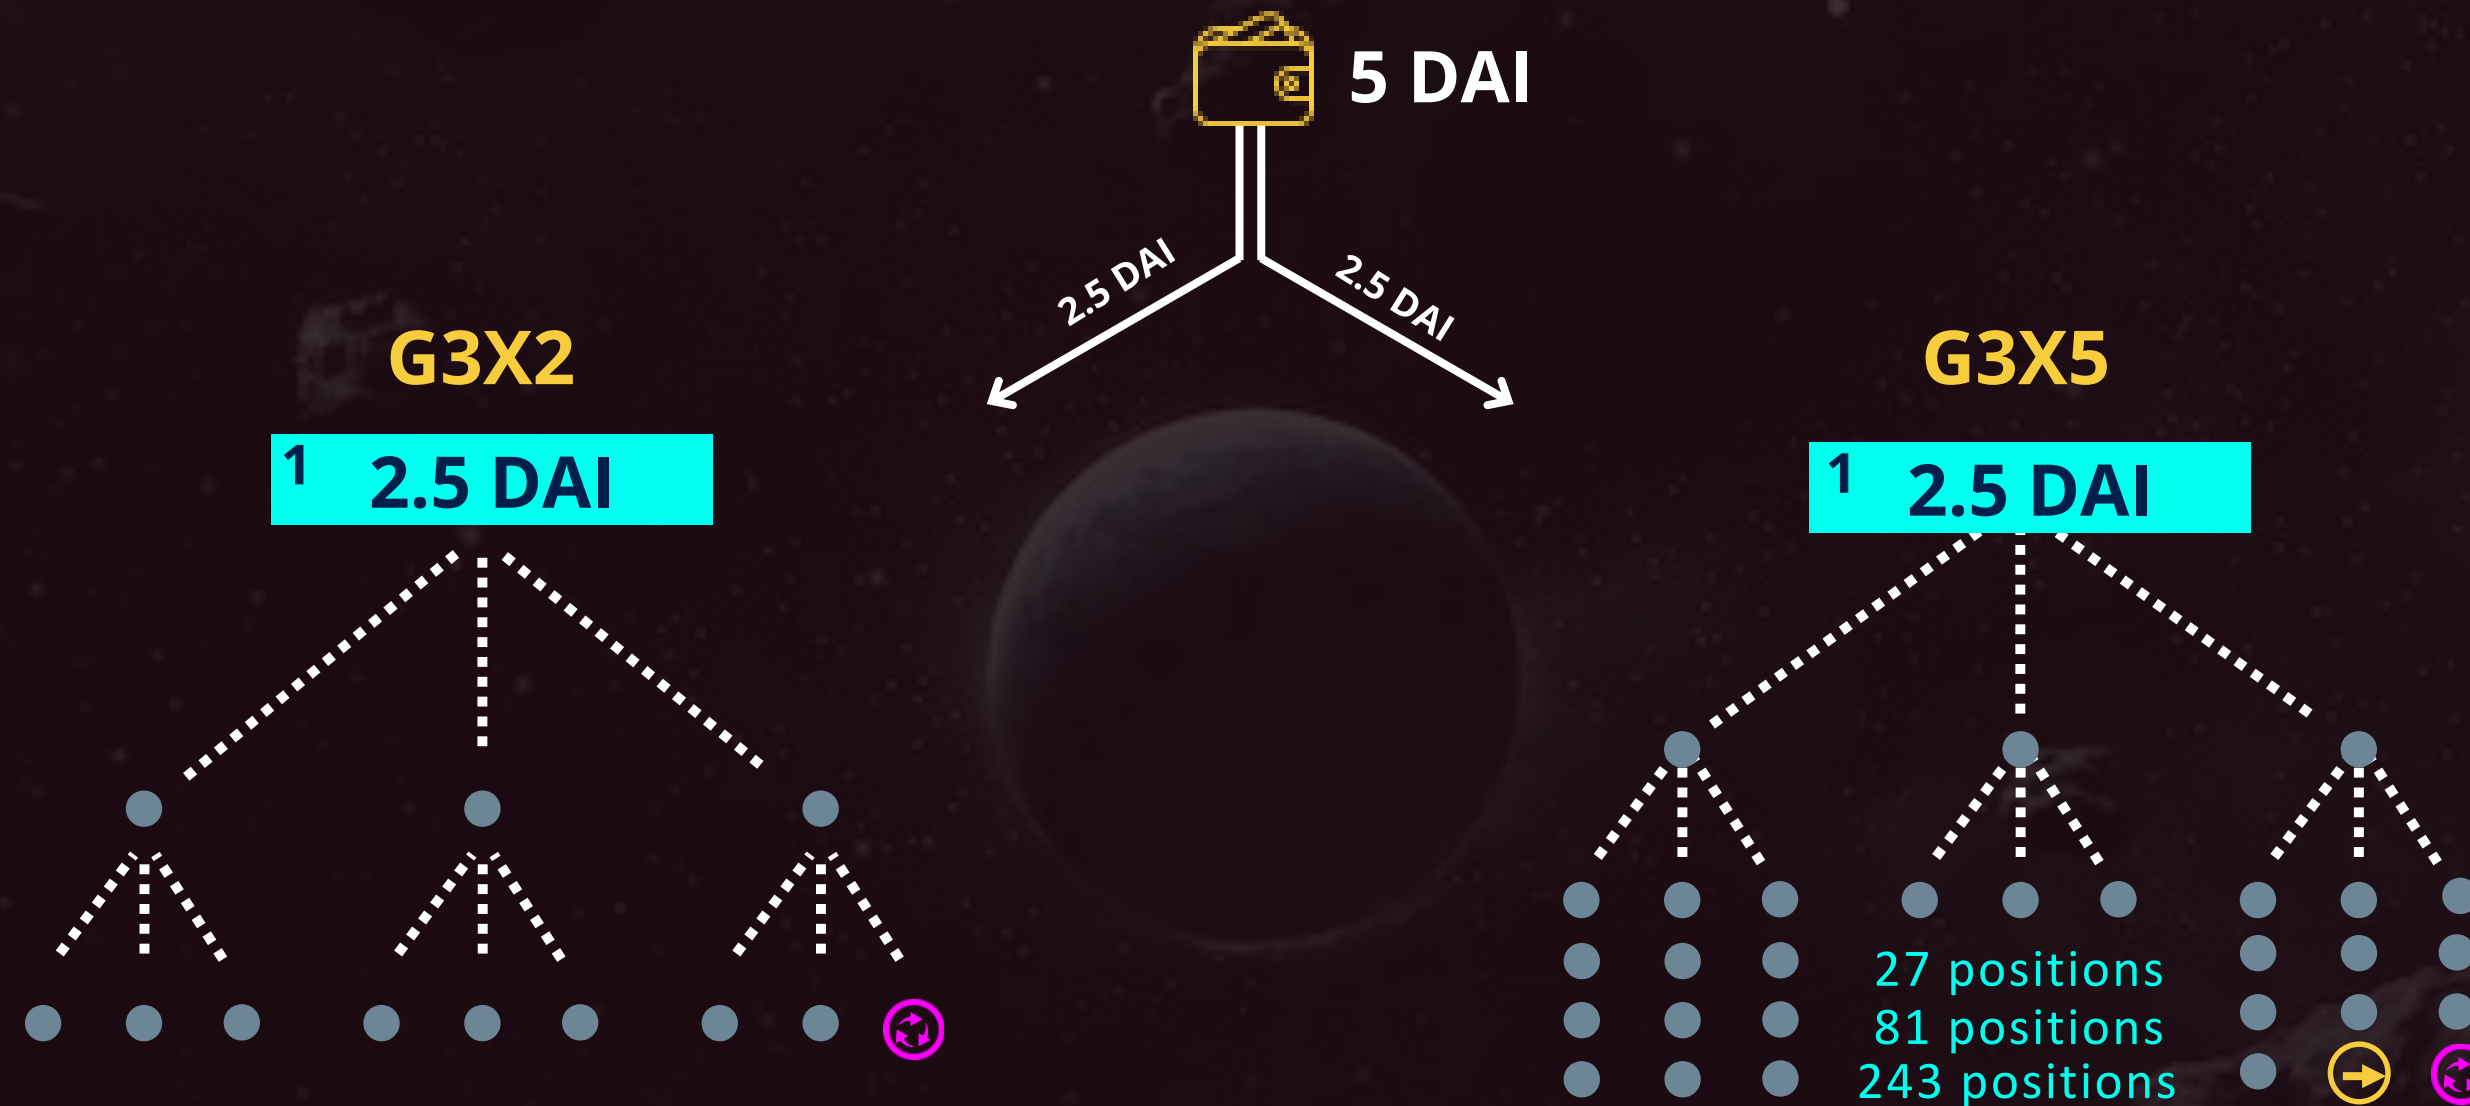

### G3X5

1	2.5	2	10	3	40	4	160
5	640	6	2,560	7	10,240	8	40,960

Each of these two programs, G3X2 and G3X5 have 8 levels. All similar and work in the same way. Each subsequent level is 4 times more valuable than the previous one. Both programs have an income and a profit 4 times bigger than the previous one. How many slots can be activated immediately? All sixteen at once if you want! They have no expiration date, so you don't have to be afraid that they will stop working. All active matrixes move and bring you revenue in parallel.

## REGISTRATION

The first level of G3X2 and G3X5 solidarity matrixes start with a **2.5 DAI** contribution each. The total contribution to register in GENIOS CLUB is **5 DAI**, you can contribute in all additional levels separately in a lowest to highest order. You cannot skip levels, that is in example: it is impossible to buy the third level without having the first and second levels active beforehand.

## G3X2 & G3X5 UPGRADE

**UPGRADE** – It's the opening (activation) of the next highest level in the matrix that you are occupying. The contribution goes up to your higher partner, or the qualified member above.

You can upgrade your level at any time or you can let the system automatically do it for you

System automatic upgrade for G3X2:

100% of the contributions from the 5<sup>th</sup>. to 8<sup>th</sup>. partner in the second line will be used to pay your contribution to the next level.

System automatic upgrade for G3X5:

Out of the last 20 contributions in the 5<sup>th</sup>. line, the first 16 will be used to pay your contribution to the next level.

When you contribute at the necessary level, on the next recycle, your referred partners will take a place below you, and with each repetition they will take a place below you again.

 **Lost Contribution:** The contribution is left to a higher partner due to failure to upgrade to a superior level.

 **Extra Contribution:** The contribution received by you on behalf of the lost contribution of an inferior partner.

## OVERPASS AND BACK PLACING

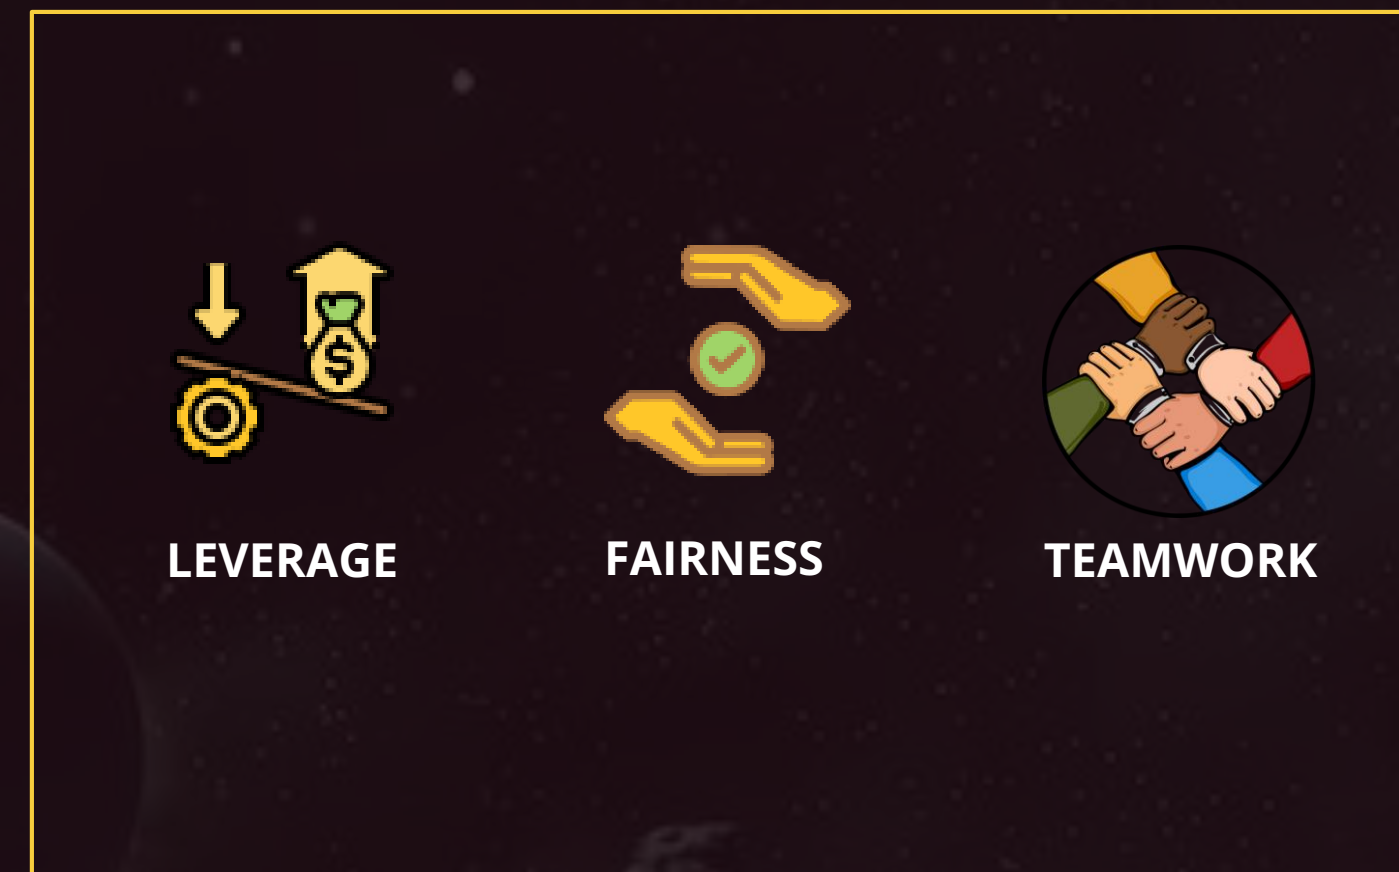

- Direct Partner.
- Overflow from above: Partner personally invited by your superior.
- Overflow from below: Partner personally invited by your downline.
- Partner who overpassed his superior partner.

You can overpass your superior partner by opening levels that he has not yet reached, in this case, you get into his superior partner matrix, the closest one who has such a level that you have contributed at and the contribution goes to him.

If the next higher partner does not have this matrix available, then in the same way you are already overpassing two higher partners until the system finds a higher partner who already has an active matrix of this level.

The Follow Me system places back partners. This means that when your superior partner contributes in that space, after the next repurchase, you will return to occupy a place below him.

The community will benefit from a pre-determined registration sequence from sponsors.  
When any sponsor registers a new user this new affiliate will be placed following these rules:

First Line: Affiliates 1, 2 and 3 From left to right.

Second Line:

Affiliate 4 under user 1 in first line.  
Affiliate 7 under user 1 in first line.  
Affiliate 10 under user 1 in first line.

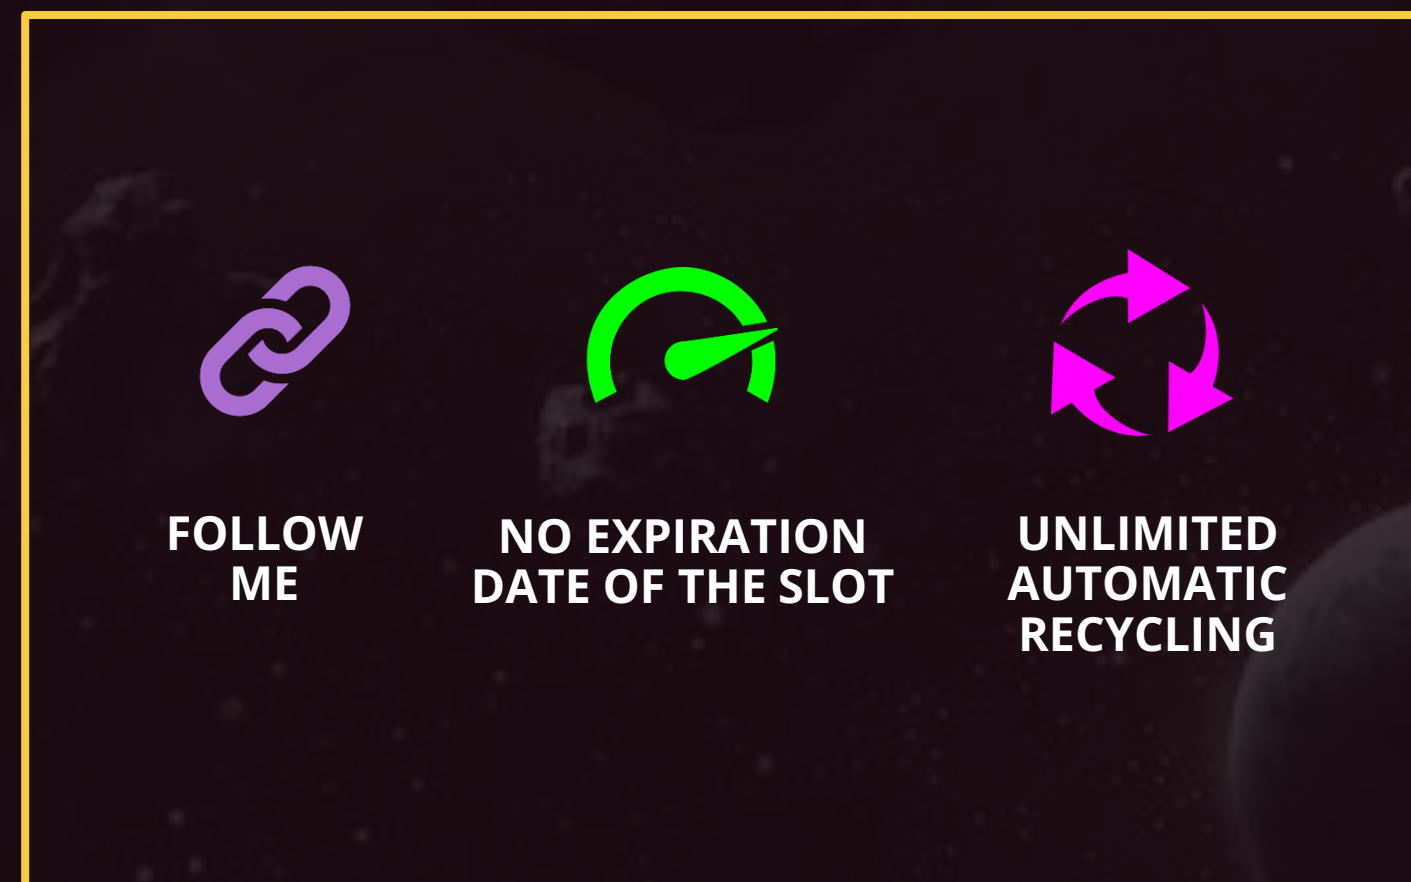

Affiliate 5 under user 2 in first line.  
Affiliate 8 under user 2 in first line.  
Affiliate 11 under user 2 in first line.

Affiliate 6 under user 3 in first line.  
Affiliate 9 under user 3 in first line.  
Affiliate 12 under user 3 in first line.

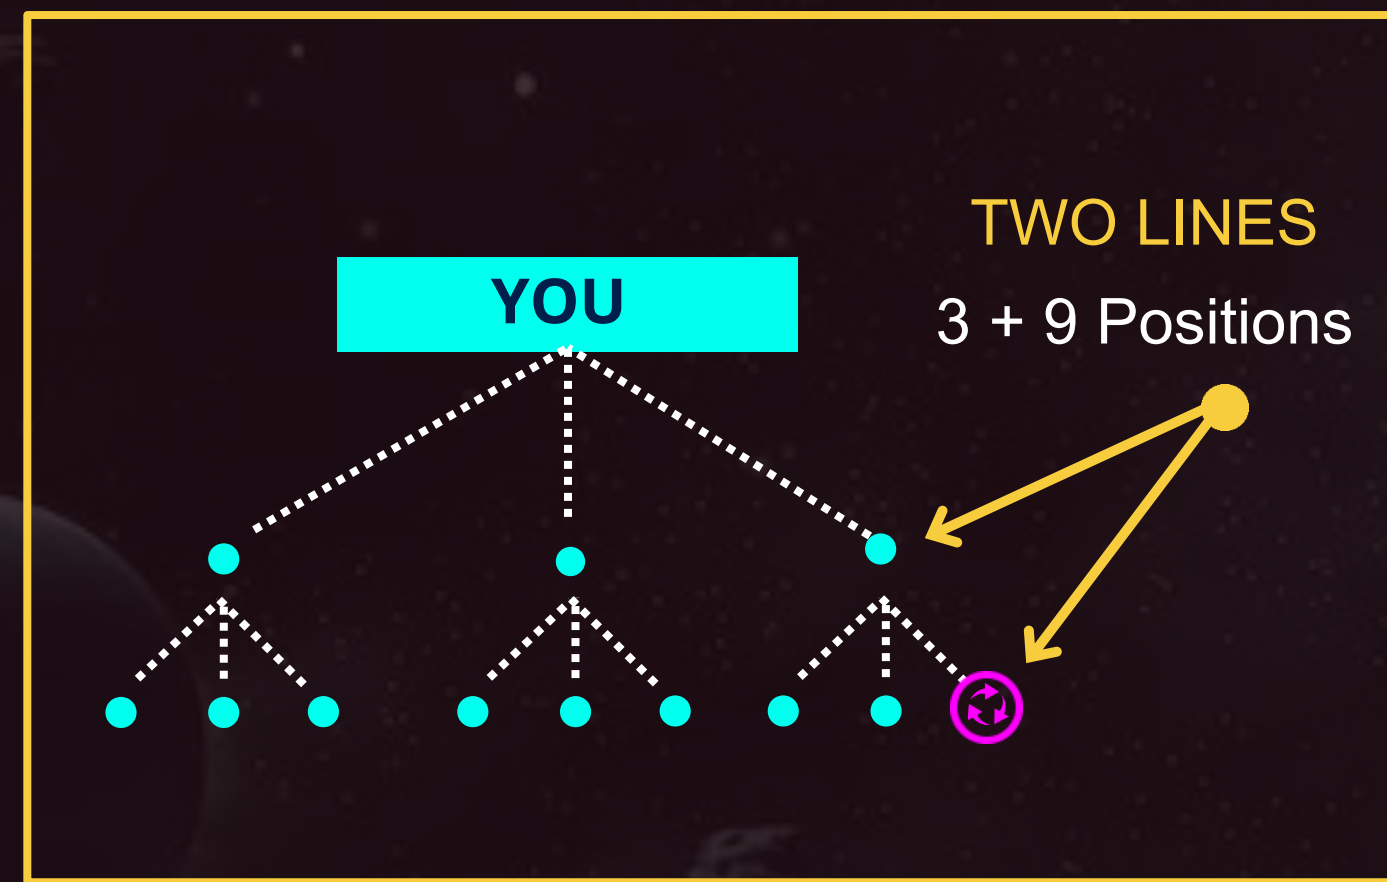

## GENIOS CLUB G3X2 MATRIX

Solidarity matrix system  
with 3 characteristics:

- Follow me
- No expiration date
- Unlimited recycling

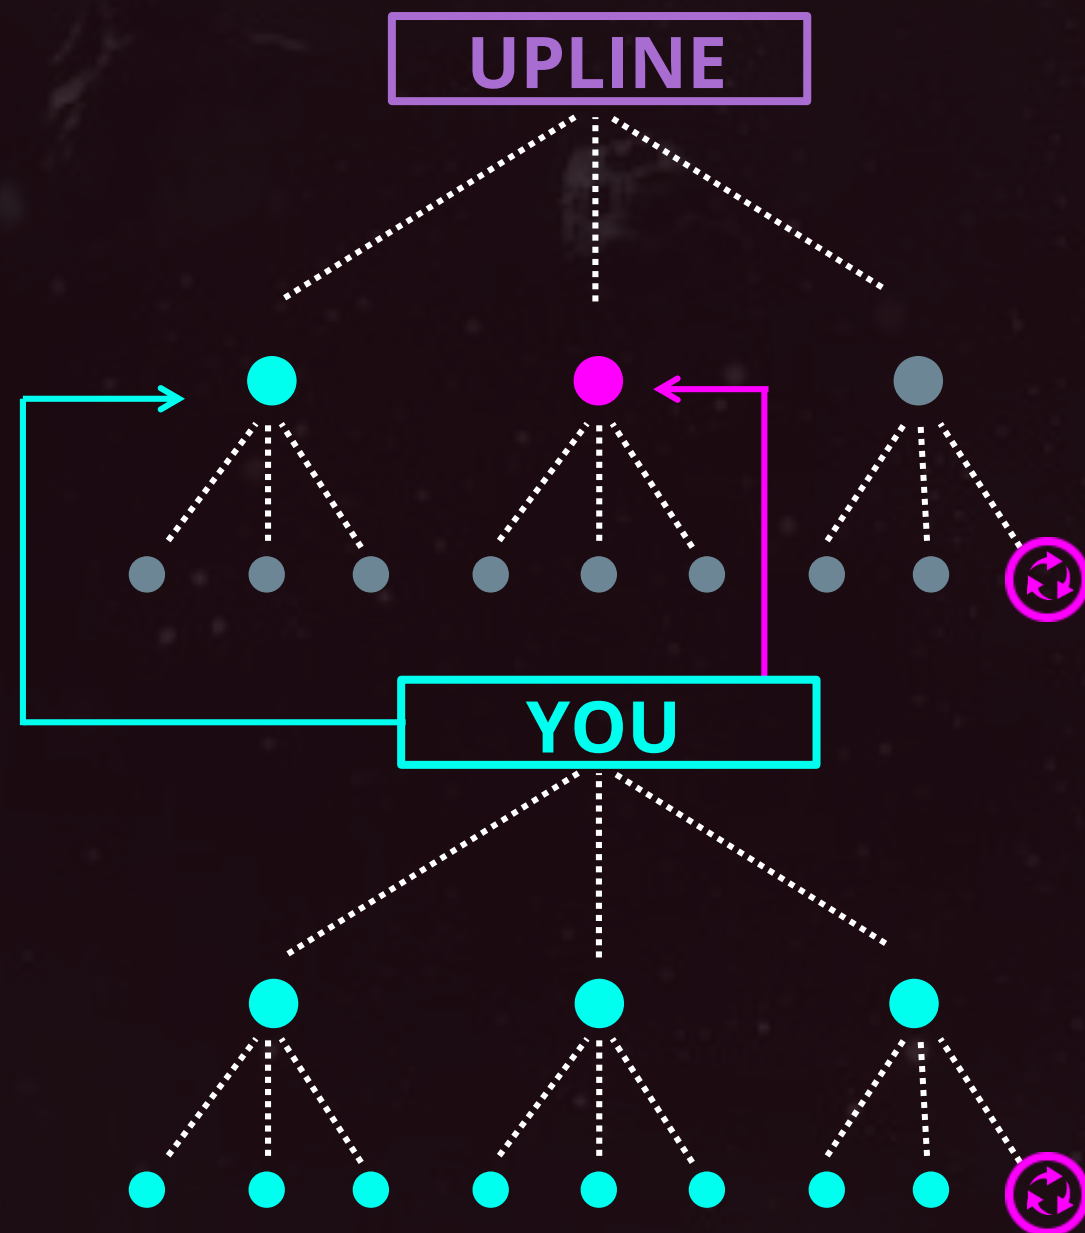

This system consists of 2 lines:

- 3 positions in the first row
- 9 positions in the second row

## G3X2 RECYCLE

It consists on the reopening (activation) of the current level.

**Recycling** opens the same matrix again for you so you continue to receive contributions from it, without recycling, this matrix would be closed and you would not get more contributions from it.

Recycling is done automatically, as soon as the last free space in your matrix is occupied, the current matrix is closed and archived.

You go on to occupy a free space in the same level of the matrix of your higher partner and your level opens again with free spaces to be occupied.

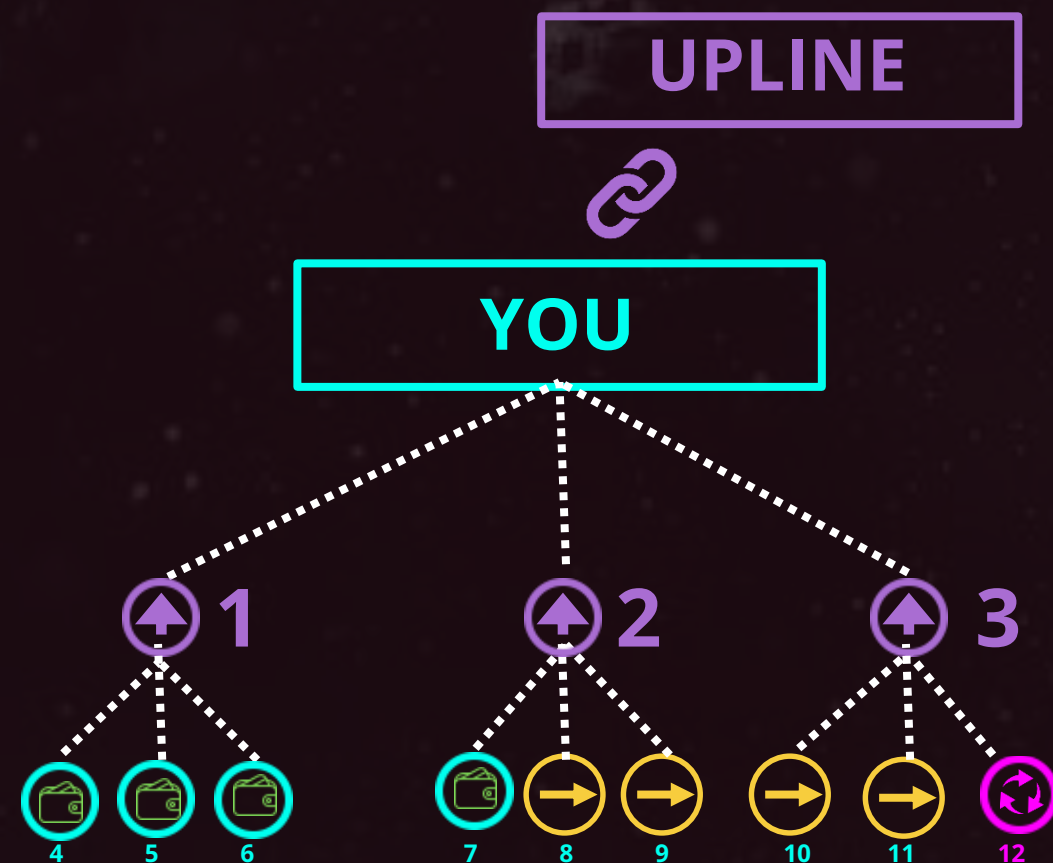

100% of the contribution goes to the wallet of your higher partner.

Similarly, your referred partners will recycle and you will receive instant contributions at all times.

## HOW TO EARN FROM G3X2 MATRIX

We are building a team together, there is an overflow from above and from below. The partners in your matrix can be: invited by you, none invited by you or mixed.

The partners who occupy the three places in the first row below you move up for your higher partner or the team. 100% of those contributions go to the account of your higher partner or the team.

You will receive the contribution of 100% of the first 4 partners who occupy the second line.

The contributions from the 5<sup>th</sup>. to 8<sup>th</sup>. partner in the second line will be used to pay your next level in case you are not already active, otherwise you will receive 100% of these contributions.

The last contribution of the second line will be used to restart the level, with this contribution the same level is activated again and 100% of this contribution is transferred to your higher partner or the team.

## G3X2 POTENTIAL CONTRIBUTIONS

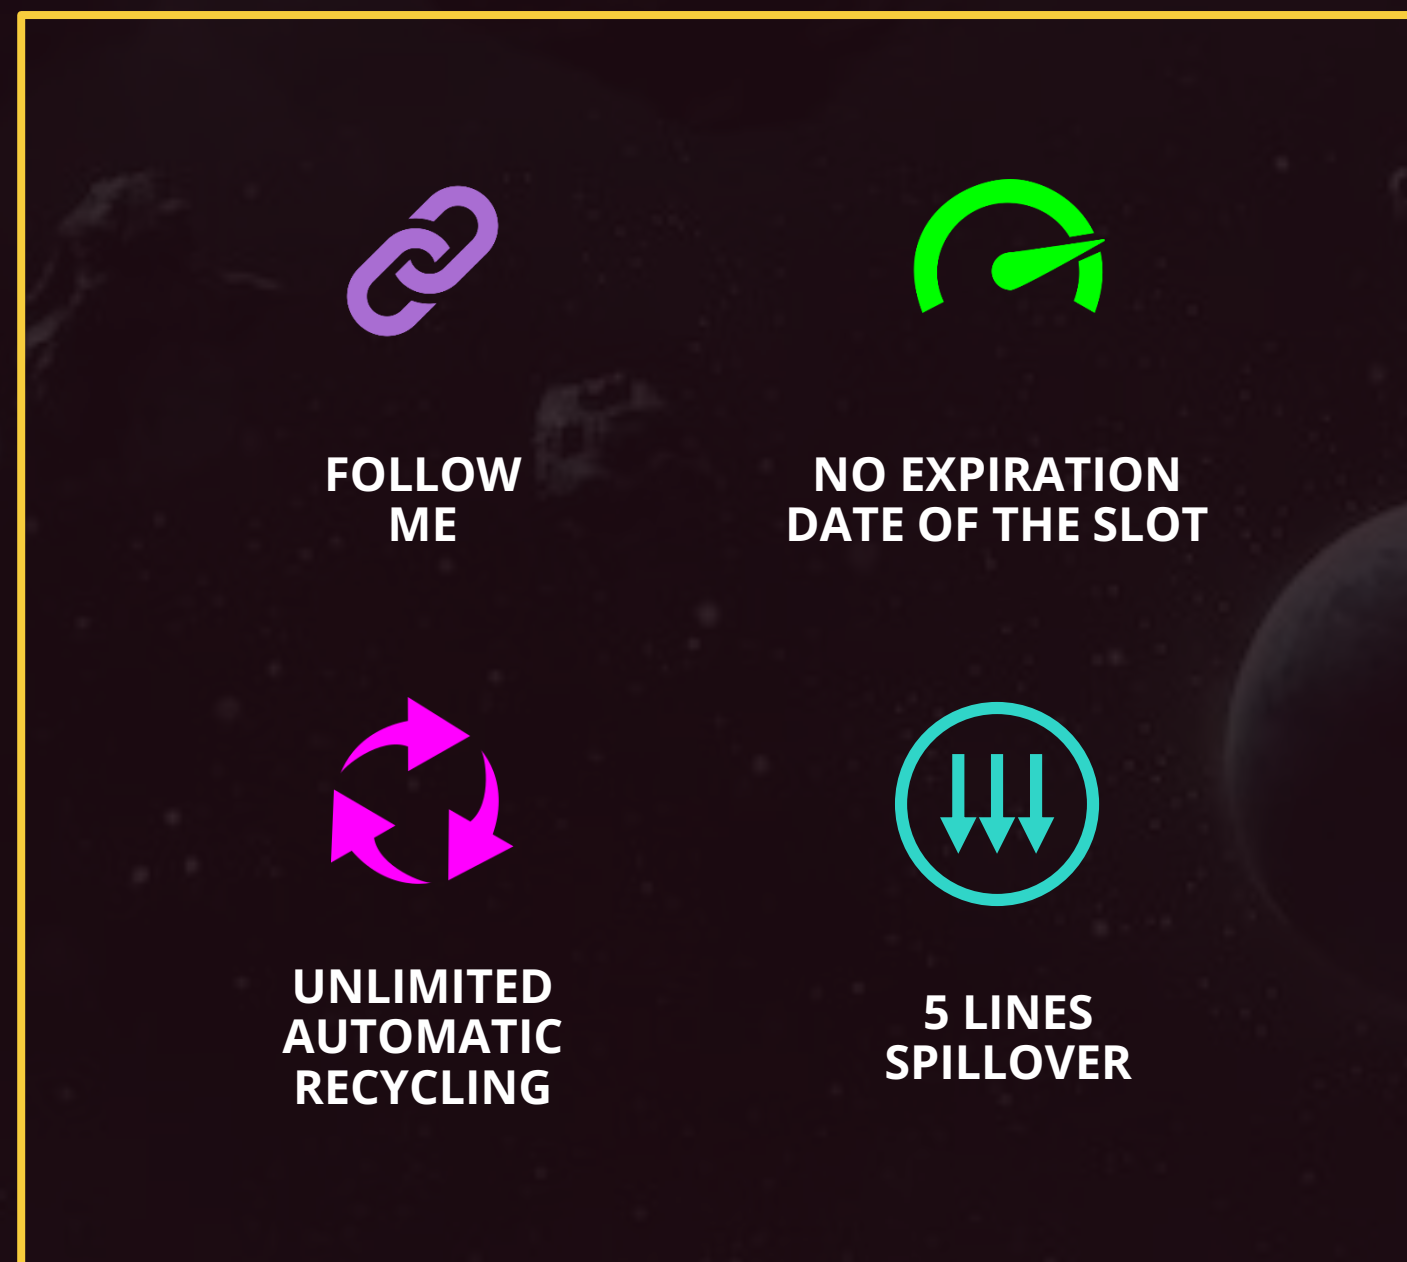

SOLIDARITY MATRIX	DAI CONTRIBUTION	POTENTIAL CONTRIBUTIONS	CONTRIBUTIONS MINUS NEXT LEVEL
1	2.5	20	10

100% of the contribution goes to the wallet of your higher partner.

Similarly, your referred partners will recycle and you will receive instant contributions at all times.

## HOW TO EARN FROM G3X5 MATRIX

We are building a 5 lines spillover system, there is an overflow from above and from below. The partners in your matrix can be: invited by you, none invited by you or mixed.

Distribution: 80% Affiliates, 10% Academy and 10% Marketing.

You will receive 10% of the contributions in the 1<sup>st</sup>. and 2<sup>nd</sup>. lines.  
15% of the contributions in the 3<sup>rd</sup>. line , 20% of the 4<sup>th</sup>.  
And 25% of the contributions in the 5<sup>th</sup>. Line.

Out of the last 20 contributions, the first 16 will be used to pay your contribution to the next level in case you are not already active, otherwise you will receive 100% of these contributions.

The last 4 contributions of the 5<sup>th</sup>. line will be used to restart the level, with these contributions the same level is activated again and 100% of these contributions are transferred to your higher partner or the team.

## G3X5 POTENTIAL CONTRIBUTIONS

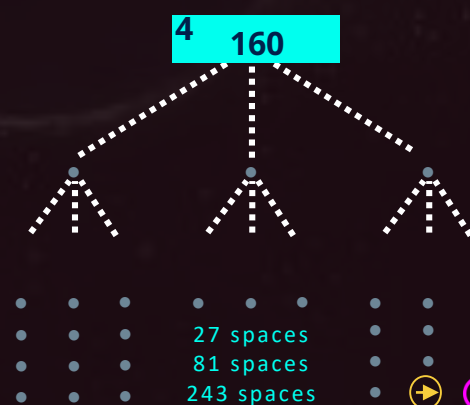

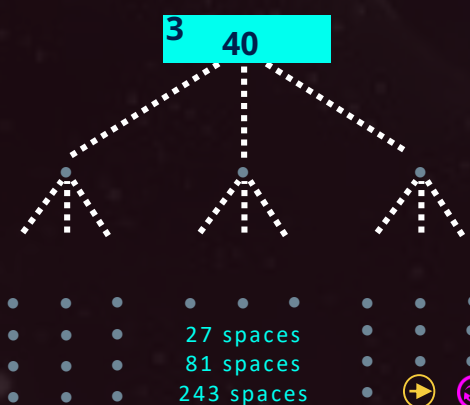

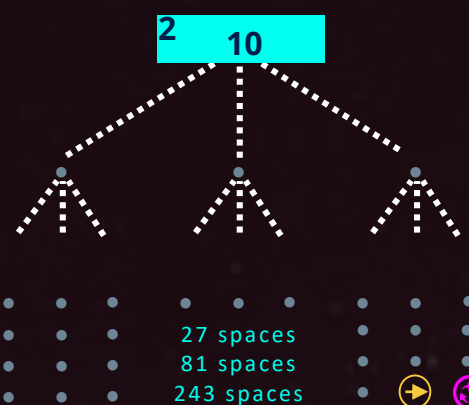

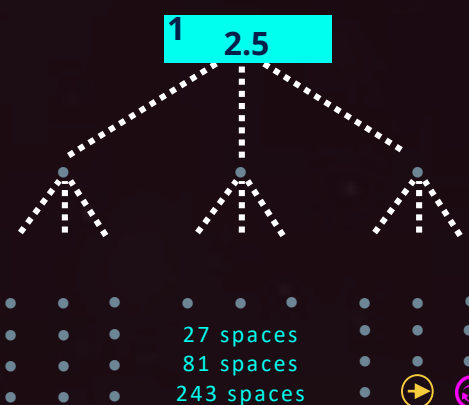

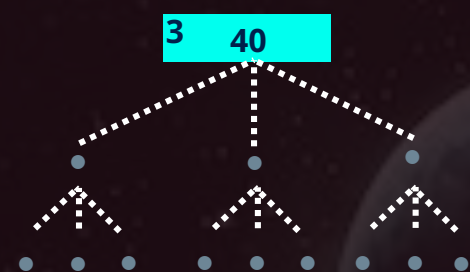

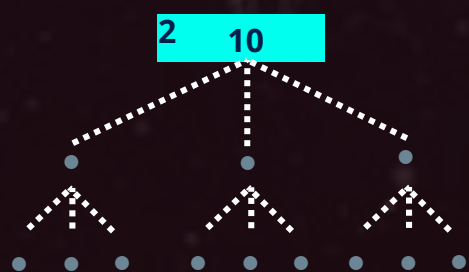

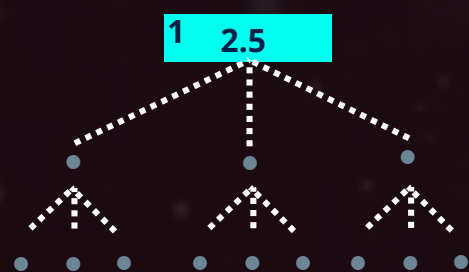

SOLIDARITY MATRIX	BUSD CONTRIBUTION	POTENTIAL CONTRIBUTIONS	CONTRIBUTIONS MINUS NEXT LEVEL
1	2.5	203	193
2	10	812	772
3	40	3,248	3,088

7	10,240	831,488	790,528
8	40,960	3,325,952	3,325,952

Use the power of a 5 line spillover system to get over 4 Million DAI

## RECOMMENDED START

It is recommended to activate at least the first four levels from the start, this ensures a powerful start and higher profit potential.

Of course, we all have to start with the first level, however, starting only with this one could quickly lead to overflow if your structure develops fast.

The most successful partners use strategies to start from several levels at once, setting an example for their partners who do the same. As a result, if you open more levels from the beginning your contributions will grow faster.

Many start from 5 levels at a time, some even from 6 levels or more.

$$5 \quad 20 \quad 80 \quad 320 = 425 \text{ DAI}$$
